# **Pineapple Plumbing - Honolulu Oahu Plumbing Services**

## **Best Plumbing Services in Honolulu, Kapolei, Waipahu, East Honolulu, Hawaii Kai and Oahu Island, HI Wide**

Honolulu residential kitchen and bathroom home plumbing can definitely have problems over time. Residential plumbing problems result because of the constant use of toilets, sinks, tubs, dishwashers, washing machines and hot water heaters. If your home is older, the plumbing pipes are typically made out of galvanized steel. This type of steel develops small breaks in the metal which can cause many plumbing problems in your Oahu home.

Pipe leaks increase as a result. As a residential homeowner, investing in the quality of your residential plumbing system is one of the best home investments you can make. Bathroom and kitchen plumbing issues are preventable and we help Oahu residents with high quality plumbing services.

### **Plumbing Repair**

Let's face it - when it comes to plumbing services, not all plumbers are equal quality. On Oahu, we've been rated as the number one plumbing repair service. Homeowners and business owners alike have trusted our plumbers to come and fix leaks, clogs, or low water pressure situations. Why? Because we have been doing this for over a decade and have a passion for completing plumbing services on time and within budget.

Don't let your plumbing repairs slow you down!

### **Installation**

Whether you need a new fixture or a high-efficiency water heater, Honolulu Plumbing can handle the installation for you. Many homeowners would consider doing these installation jobs themselves. It would save money, right? Unfortunately that's the wrong way of looking at the task. When a fixture or water heater isn't properly installed by a plumbing

professional, you run the big risk of long-term damage, expensive repairs (talk about 2 steps backwards, right?) and even lower efficiency. That means money wasted every month.

## **Replacement**

When a plumbing repair just won't do the trick, a replacement may be in order. At Honolulu Plumbing, we make the plumbing replacement process seamless and easy. First we will find out if a replacement is absolutely required, and then send our plumbers to make the replacement.

## **Maintenance**

Maintenance is one of the best ways you can save money in the long run. By properly maintaining your current plumbing system, you will ensure that the components

## **Plumbing Honolulu HI**

## Gas Line Plumbing

Gas leaks are dangerous and can have detrimental effects on your loved ones. If you detect a gas leak it needs to be taken care of immediately. Gas leaks are any leaks of natural gas from the pipelines that enter the home. Even small leaks can accumulate gas and turn into a very dangerous, potentially explosive situation. Ever seen Fight Club? Anyway, if you are worried or unsure if a gas leak may be in your home, contact us so we can bring in our gas leak detection team! We offer a complete gas leak diagnostic service, gas line repair, gas line installations and gas line replacements. If you are purchasing and adding new gas

appliances and require a separate gas line for new gas dryers, stoves, or water heaters - we can help! You can also extend gas lines you currently have in place.

## Water Heater Services
